

GY6 SOLUTIONS · BIDS AND TEAMING

FOR CONTRACTORS AND PRIMES

See the notice early.
Submit a bid you believe in.

Winning government work takes more than a good proposal. You need to see the right notice early, decide fast, team with the right partner and get an honest review before you submit. We do that with you, and our software keeps every requirement, deadline and decision in one place.

RFP Bid Desk

It watches for you. Federal, state and local notices matched to what you sell, checked every day.

You get a short list each week with early buyer signals and a plain go or no-go reason for each.

We write it with you. Compliance matrix and section drafts built only from your own evidence, with gaps marked for you to fill.

Grant Bid Desk

Funding matched to your plans. Programs found and ranked against your mission and capacity.

Narrative and budget written with you and checked against the funder's scoring.

Monthly grant management keeps deadlines, reports and award paperwork on track.

Shipley-method team reviews

Pink, red and gold color team reviews, run with The Voltron Group.

Software checks compliance, scoring and consistency before the humans read.

Every finding is written down, assigned and closed before you submit.

GY6 Partner Portal

Find and rank partners by set-aside, region, certifications and the gaps on your bid.

Team by invitation. A mutual NDA is signed in the portal before anything is shared.

Teaming checks test workshare against subcontracting limits, set-aside fit and conflicts.

1 · FIND

See it early

The desk watches notices and buyers, then sends the few worth your time.

2 · DECIDE

Bid with open eyes

A scorecard shows fit, risk and teaming gaps, with the reason for each. You make the call.

3 · WRITE AND REVIEW

Submit with confidence

We write with you, team with the right partner and review it like an evaluator would.

Your work stays yours

Each company sees only its own bids. Partners see what you share and nothing more. The software proposes and shows its source. People make every decision.

Real people. Got your six.

Our people write the bids and own the result with you. Start with one bid and add more when it works.

Let's talk.
